DETAILED ACTION

1. This action is responsive to communications: Application filed on 2/14/2001.
2. Claims 1-10 are pending in this case. Claims 1, 2, 5-7, and 10 are independent claims.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C 121:

- I. Claims 1-4, drawn to a method for creating a revision history (or new version) of negotiating document between first party and second party, classified in class 715, and subclass 511.

- II. Claims 5-10 drawn to creating a standard clause database and defining negotiation privileges, classified in class 707, and subclass 9.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (See MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are Group I, substantially directed towards processing of document and version management such as creating a revision

history (or creating a new version history) of negotiating document between first party and second party. Group II, substantially directed towards database and privileged access such as creating a standard clause database and defining negotiation privileges.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
